

Rotary Club of Ayr
Newton Primary Shred Skatepark Project
*(A partnering arrangement between Newton Primary School and Shred Skatepark of Ayr
sponsored and facilitated by Rotary)*
Sustainable Progress during this current School Year 2023-24

Following our earlier report of **Rotary Club of Ayr's** initiated '**Newton Primary Skatepark Project**' for the School Year **2022/23**, this update refers to the continuation of the project during this School Year **2023/24**.

Realising the children's enthusiasm and enjoyment whilst improving their good health, it was decided to continue with the project's attainment and sustainability as part of the school's extracurricular activities. This has allowed an increase in the number of children wishing to be involved, gaining self confidence and wellbeing from this Skatepark Project as described in our initial report.

This year's project commenced in **September'23** involving **70 children**, comprising 5 groups of fourteen, with each group being tutored and supervised over 6-weeks, during the overall period of **9 months between September'23 and May'24**.
